CAREER OBJECTIVE

MCA student with a passion for transforming ideas into practical technology solutions, combining software development, databases, and computer vision to build efficient and user-focused applications. Eager to apply technical knowledge, explore emerging technologies, and contribute to innovative software projects.

TECHNICAL SKILLS

Programming Languages: Java, C, C#, Python, PHP, JavaScript, SQL
AI/ML: Machine Learning, Deep Learning, CNN, TensorFlow, OpenCV
Front-end: HTML5, CSS3, JavaScript, Bootstrap, AngularJS, NodeJS
Back-end & Web: Node.js, Express.js, PHP, REST APIs
Databases: MariaDB, MySQL, MongoDB, phpMyAdmin, Oracle SQL, SQLite
Core Concepts: DSA, Database Design, CRUD Operations, Session Management, Form Validation, OOPS, API Integration
Security: Password Hashing, SQL Injection Prevention, Role-Based Access Control
Testing: Manual Testing, Browser Testing
Tools: Git, GitHub, XAMPP/WAMP, VS Code, Postman, Eclipse, Jupyter Notebook
Design: Figma, Canva

EDUCATION

MCA ASAS, Mysore MCA CGPA - 8.53	2025 - Present
BCA (Bachelor of Computer Application) BGS First Grade College, Mysore Computer Application CGPA: 9.5	2022 - 2025
Class XII - State Jnanodaya PU College, Mysore PCMB Percentage - 84%	2020 - 2022
Class X - State (NCERT) Hemavathi Vidya Samsthe Regular · Mysore Percentage - 87%	2020

EXPERIENCE

Software Developer Let's Pro Academy Software Developer · Developer · Full Time Mysore, Karnataka	Sept 2024 - Apr 2025
Global IT Training Intern Toshiba Software (India) Pvt. Ltd. Buddy · Full Time Bengaluru	Jun 2026 – July 2026

- Assisted Japanese professionals during a month-long Global IT Training Program, supporting communication, training activities, and cross-cultural collaboration while gaining exposure to project management and software engineering concepts.

PROJECTS

Crowdfunding Platform Web Application Let's Pro Academy - Developed a web-based Crowdfunding Platform using PHP, MariaDB, JavaScript, HTML, and CSS, enabling users to create and manage fundraising campaigns and donors to contribute online. - Implemented role-based access control for Admin, Creator, and User modules along with secure authentication and transaction management. <i>Tech Stack: HTML, CSS, PHP, JavaScript, MariaDB, Apache</i>	GitHub	Feb 2025 – May 2025
Simple Blog Web Application	GitHub	Dec 2025 – Jan 2026

- Built a full-stack blog application using Node.js, Express, and MongoDB with create, view, update, and delete functionality for posts.
- Implemented image and video uploads with server-side media storage and an Instagram-style feed, with the frontend communicating with the backend through REST APIs.

Tech Stack: *HTML, CSS, JavaScript, AngularJS, Node.js, Express.js, MongoDB, Postman*

Weather Forecast Aggregator Web Application

[GitHub](#)

Mar 2026 – May 2026

- Developed an SOA-based Weather Forecast Aggregator that collects weather data from multiple sources, processes and aggregates the information, and delivers unified forecasts through SOAP web services.
- Implemented WSDL-based service contracts and XML data exchange with a client interface for retrieving real-time weather information.

Tech Stack: *XML, JavaScript, SOAP, HTML, CSS, PHP, WSDL, SOA*

Inventory Management System

[GitHub](#)

Jan 2026 – Feb 2026

- Developed an Inventory Management System to manage stock levels, product details, suppliers, and sales records in a structured database-driven application.
- Implemented product management, stock tracking, low-stock alerts, supplier management, and report generation to improve inventory control and reduce manual errors.

Tech Stack: *PHP, MySQL, HTML, CSS, JavaScript, Bootstrap, XAMPP*

Inventory Management System (Major)

[GitHub](#)

Aug 2026 – Present

Technologies: Python, YOLO, OpenCV, Deep Learning, Computer Vision

- Developed a YOLO-based system for real-time traffic sign detection and recognition.
- Applied image preprocessing and augmentation to improve detection accuracy.
- Designed for applications in ADAS and intelligent transportation systems.

Tech Stack: *Python, YOLO, OpenCV, Computer Vision, Deep Learning, TensorFlow, NumPy, Pandas*

CERTIFICATIONS

-
- Data Structures and Algorithms (DSA) – Corizo
 - Cloud Computing – Corizo
 - Data Science – Corizo
 - Progress Achiever – Bharat English Test (BET), 2026 – Amrita Vishwa Vidyapeetham & FluentEdge AI

AREAS OF INTEREST

-
- Web Development
 - Backend Development
 - Database Management
 - Machine Learning & Artificial Intelligence
 - Computer Vision
 - Data Science
 - Real-Time Application Development
